2090392 UCA Windgate Recital
Touch Panel Submittal

Touch Panel Submittal

Customer: GENED6

Contact: Kevin Carter

Job Number: 2090392

Room / Room Type: Recital

Panel: Crestron TSW-770

Date: 6-7-2021

Due Date: (Response is Due within 7 Days of receiving the TP Submittal)

Prepared by: Conrad Morawski

Home Screen

A	Select an activity to begin. Once a selection is made the system will get the room ready by turning on any activity associated devices and routing default sources.
B	Select Presentation to be taken to the first activity. (See next page)
C	Quick access popup controls are provided here and are available on all screens.
D	Select at any time to return to this Home screen.

Notes

NOTE: The second touch panel located in this room will mirror this touch panel's programming.

# Presentation Activity – Simple Routing

A	Select to route a new source to the projector and confidence monitor.
B	To control the PTZ camera, select Camera to enable the Source Control button and then select it. (See next page)
C	Select the Advanced button to be taken to advanced routing. (See page 6)

Notes

A	With the Camera source selected, select the Source Control button to access camera controls. (See next page)

Notes

A	Select to adjust camera pan/tilt/zoom.
B	Select to recall a camera preset.

Notes

Presentation Activity – Advanced Routing
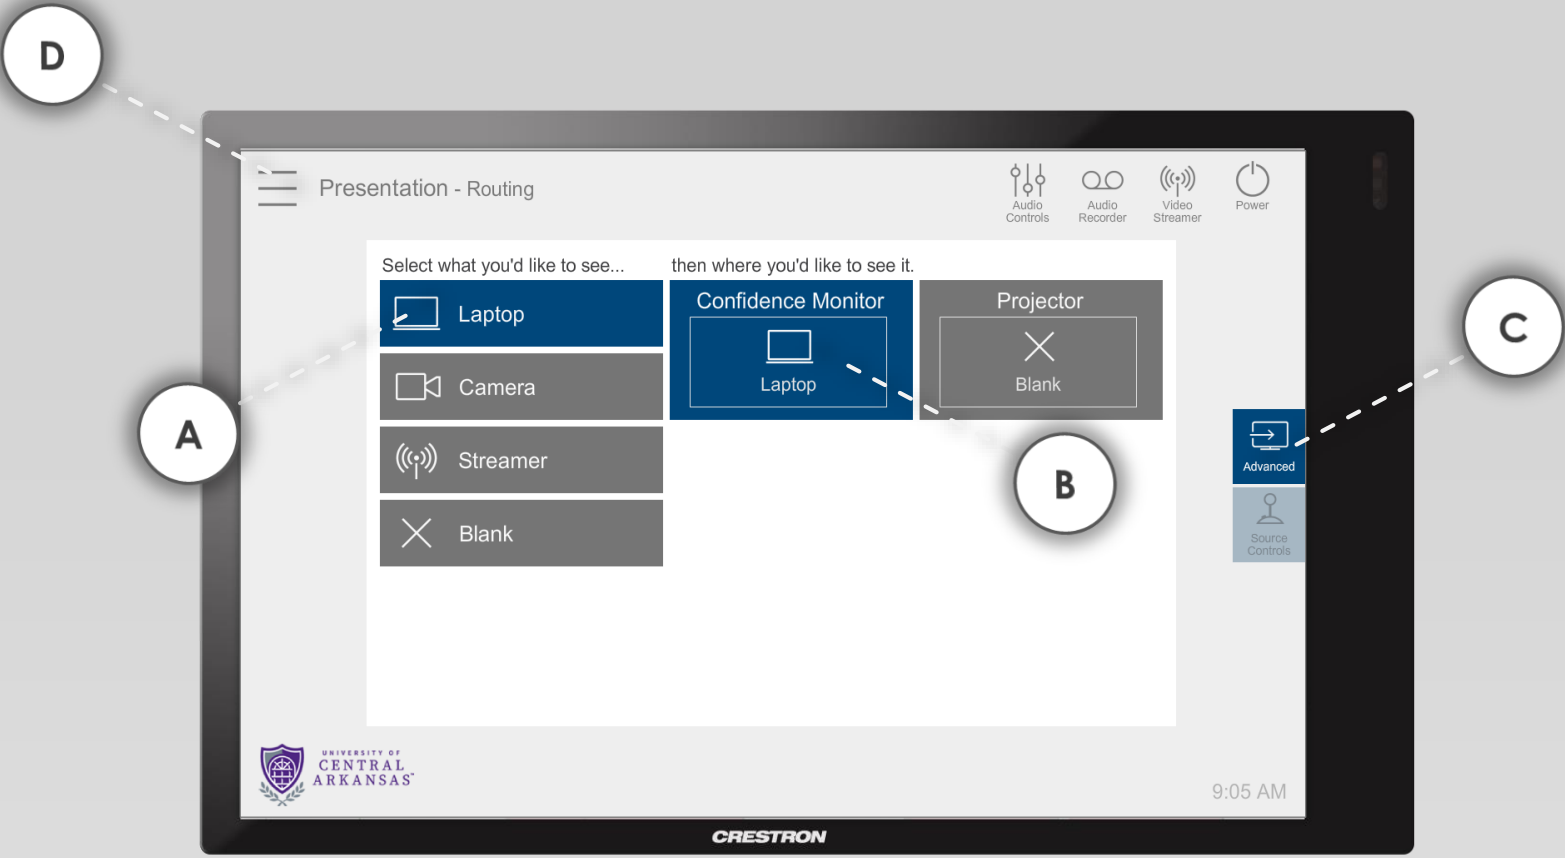

|	
A	In the advanced routing screen the user has the ability to route a single source to an output destination. Begin by making a source selection on the left.
B	Next make an output selection on the right.
C	Select the Advanced button again to return to the simple routing screen.
D	Select to go to the main menu navigation. (See next page)

Notes

Main Menu Navigation

| A	In the Main Menu Navigation the user is presented with an additional means of selecting an activity as well as access to Settings and Home.
B	Select the Settings button to go to additional system settings. (See next page)

Notes

Settings – Touch Panel

A	Select to adjust or turn auto Panel Brightness On/Off.
B	Select to adjust or turn Click Volume On/Off.
C	Select to be taken to display power controls. (See next page)

Notes

GENED6 \ 2090392 \ Recital \ Crestron TSW-770

Settings – Display Power
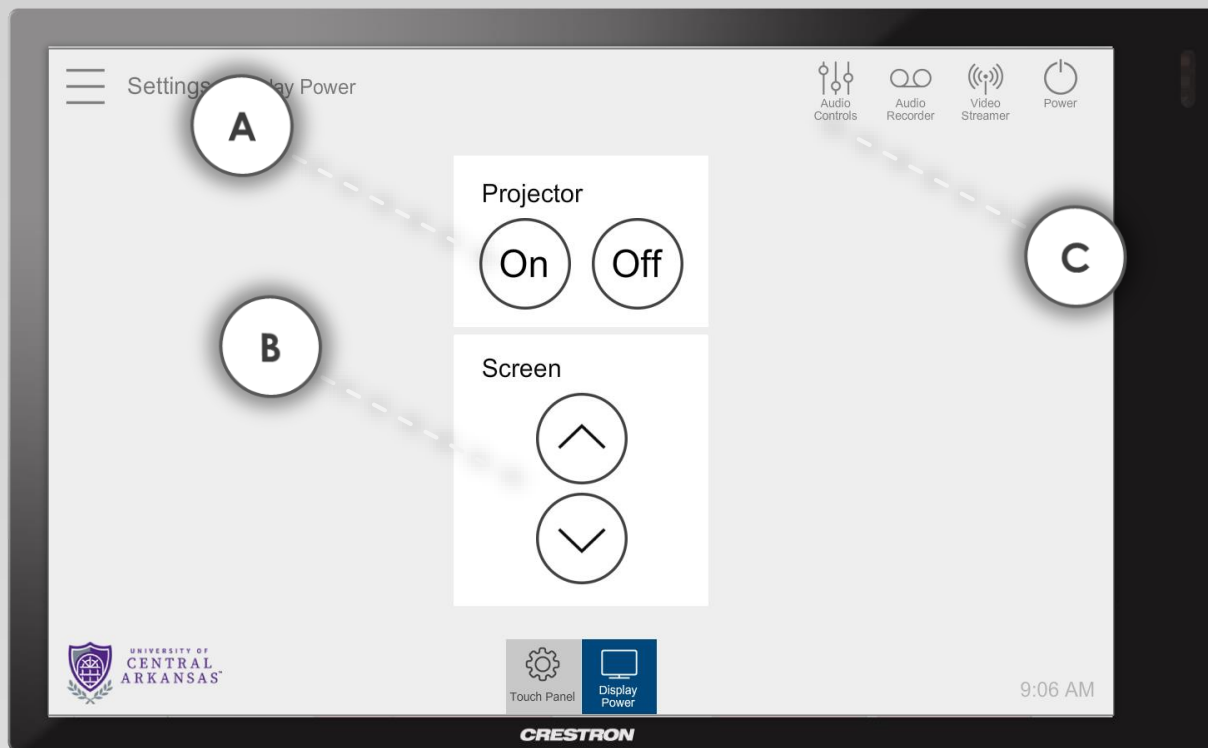

A	Select to power a projector On/Off.
B	Select to raise/lower the projector screen.
C	Select the Audio Controls quick access button for volume controls. (See next page)

Notes

NOTE: At the moment only the display power control for the main display is shown. If the confidence monitor can be controlled the touch panel will be updated to include it.
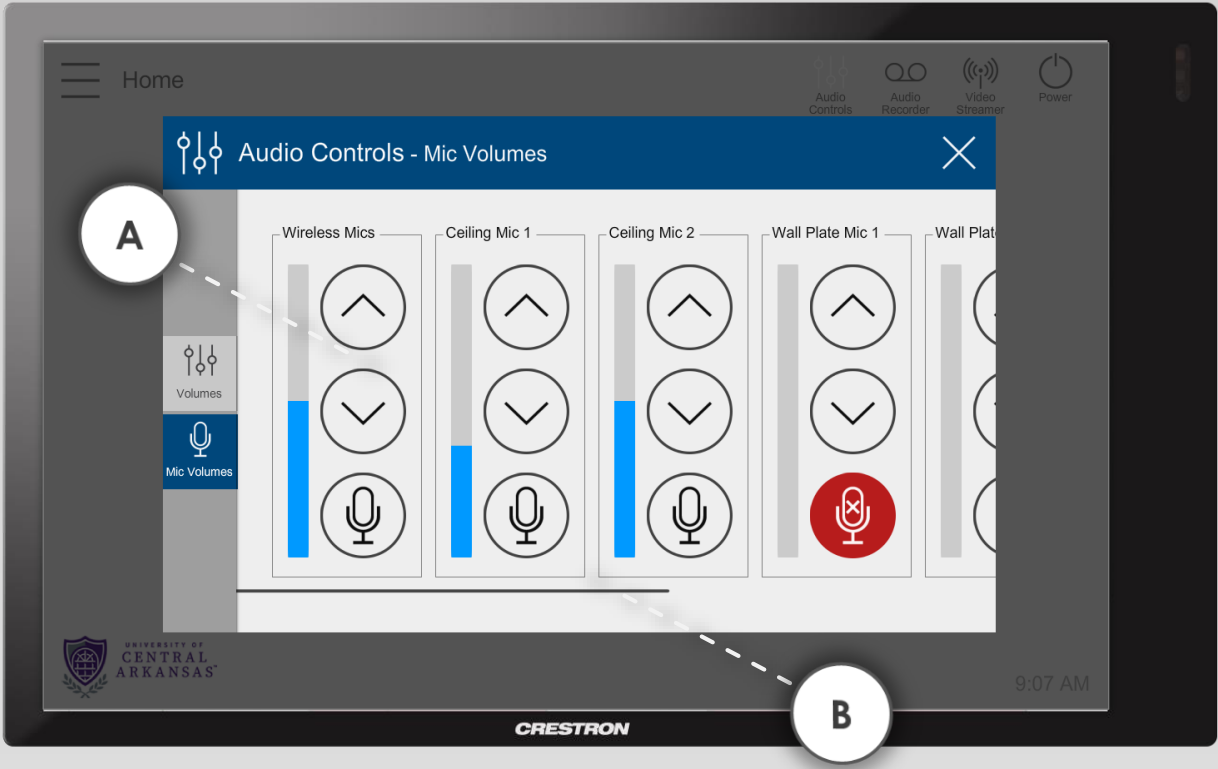

Audio Controls Popup – Volumes

A	Select to raise/lower/mute an audio level.
B	Select to go to the Mic Volumes submenu. (See next page)

Notes

Audio Controls Popup – Mic Volumes

A	Select to raise/lower/mute a microphone level.
B	Swipe left/right to see additional controls. (See next page)

Notes

A Select to go to the Audio Recorder popup.

Notes

Audio Recorder Popup
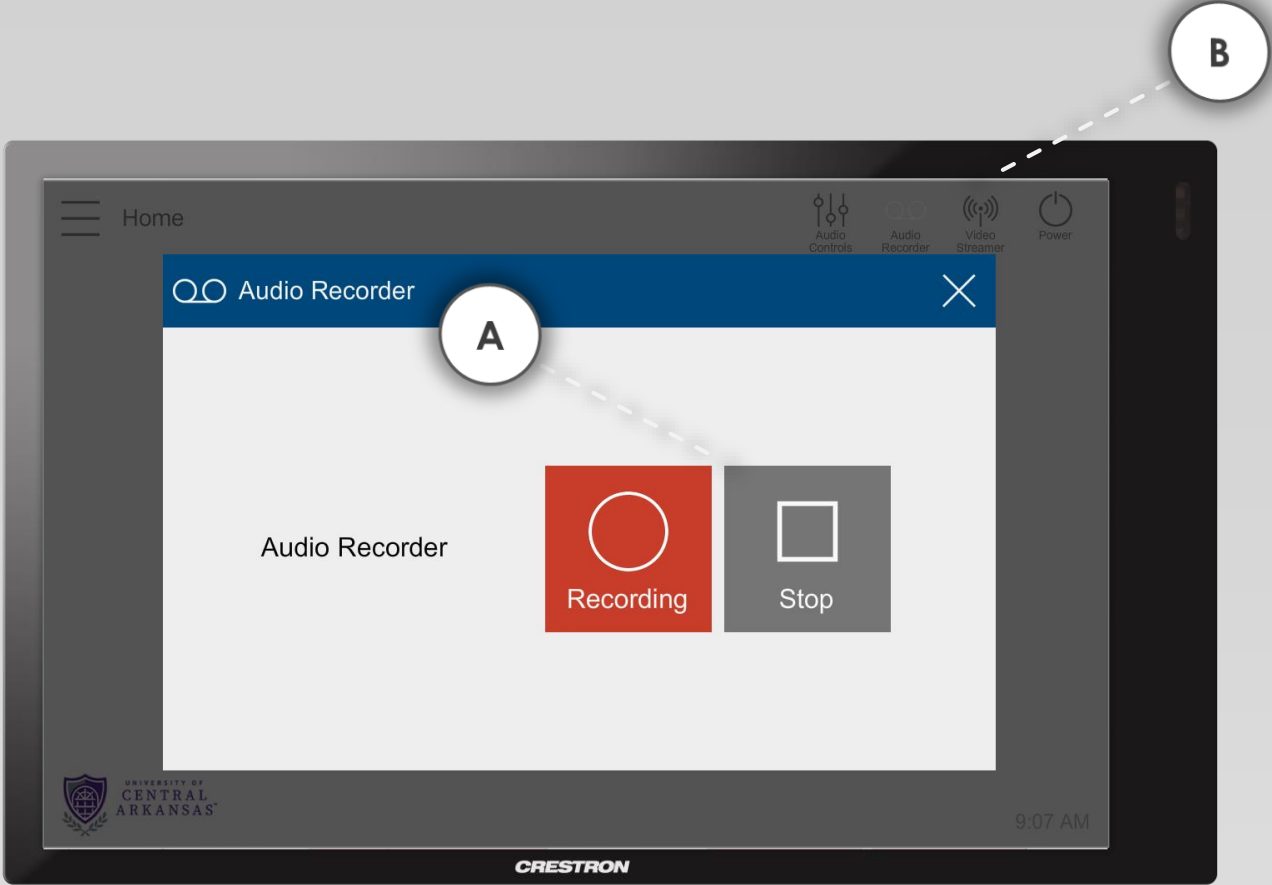

A	Select to start/stop the audio recorder.
B	Select to go to the Video Streamer popup. (See next page)
